EDUCATION

B.Tech. (Information Technology)
RTU — 2015

CORE COMPETENCIES

- Full-Stack Development (SDLC)
- Front-end & Back-end Development
- UI/UX Design
- Team Leadership
- Agile / Scrum Methodologies
- Cross-functional Collaboration
- Code Review & Mentoring

TECHNICAL SKILLS

LANGUAGES & FRAMEWORKS

Angular (8 – 21+), JavaScript, TypeScript, HTML5, CSS3, Node.js, RxJS, PrimeNG, Angular Material, Bootstrap, Jasmine, Jest

BACKEND

Java, Spring Boot, RESTful APIs

DATABASE & CLOUD

MySQL, AWS (RDS, Redis)

VERSION CONTROL

Git, SVN, Bitbucket, GitHub

PRACTICES & TOOLS

Agile, TDD, JIRA, Code Review

SUBHAM KUMAR

Full-Stack Developer & Tech Lead

PROFILE SUMMARY

Results-driven Full-Stack Developer with 9 years of experience building, reviewing, and optimizing web applications end to end. Deep expertise in Angular, TypeScript, JavaScript, HTML/CSS and modern UI architecture, complemented by hands-on backend development in Java and Spring Boot with RESTful services. Currently leading front-end delivery as a Tech Lead, driving code quality, requirements definition, and cross-functional collaboration between UI and backend teams. Known for delivering scalable, high-quality solutions in Agile environments and for continuously upskilling toward full-stack and system-design ownership.

WORK EXPERIENCE

Coforge Limited Feb 2024 – Present

Tech Lead · Project: CargoSpot Handling System

Angular 20+, PrimeNG, REST API Integration, TypeScript, RxJS, Agile, JIRA, Git, Bitbucket

- Lead design, development, and maintenance of Angular applications for a cargo handling system, integrating with existing platforms to streamline cargo tracking, inventory management, and logistics operations.
- Conduct code reviews across the team to catch issues early and enforce consistent coding standards.
- Drive requirement-gathering sessions with business analysts to translate objectives into clear technical scope.
- Partner closely with the back-end team to define and implement best-practice RESTful APIs.
- Champion Agile delivery with a Test-Driven Development (TDD) focus, and manage bug tracking through JIRA to keep releases predictable.

IRIS Software Technology Pvt. Ltd. Mar 2021 – Feb 2024

Senior Engineer (Senior UI Developer) · Project: Compliance for You (CoFY) — Citi Bank

Angular 13+, TypeScript, RxJS, Agile, JIRA, Git, Bitbucket

- Spearheaded development of the application from inception using Angular 13 and related technologies to build a robust, user-friendly interface.
- Conducted thorough code reviews on Bitbucket, giving constructive feedback to uphold code quality and standards.
- Prepared Software Quality Assurance (SQA) documentation each iteration, ensuring full coverage of test procedures and results.
- Ran requirement-gathering sessions with business analysts to align on project objectives and user expectations.
- Collaborated with the back-end team on best-practice RESTful API design, and drove Agile/TDD delivery cycles.

Conduent Business Services

Dec 2018 – Mar 2021

Software Engineer · Project: Life@Work Portal (multiple Fortune 500 clients)
Angular 8, Angular Material, RxJS, TypeScript, JavaScript, SVN, JIRA

- Played a key role in designing and developing the Life@Work Portal using Angular, HTML5, CSS3, TypeScript, and Bootstrap.
- Collaborated directly with client teams and business analysts to gather requirements and ensure alignment with expectations.
- Worked with the back-end team on RESTful API integration to ensure seamless front-end/back-end functionality.
- Owned bug fixes and User Acceptance Testing (UAT) releases, and contributed to Agile/TDD practices with JIRA-based tracking.

Compunnel Technologies Pvt. Ltd.

Dec 2016 – Dec 2018

Web Developer · Project: Elsevier e-Commerce
MySQL, RDS, Redis, GitHub, AWS

- Led parsing and standardization of data from diverse sources (files and APIs), ensuring consistency and accuracy in handling information.
- Identified and resolved bugs while consistently improving application performance for an enhanced user experience.
- Built efficient, testable, reusable backend modules as standalone components and platform extensions.
- Collaborated with solution architects across multiple concurrent projects, ensuring alignment with architectural guidelines.

PREVIOUS EXPERIENCE

IIHT Technologies — Trainer

May 2016 – Dec 2016

Magic Software — Trainee, Digital Media (Oxford Educate, Oct 2015 – HMH-PO, Pearson AT Focus) Mar 2016
